- **Styling & UI:** Tailwind CSS, Bootstrap, Material UI, Responsive Design, Accessibility (a11y)
- **State & Data:** Redux, React Query, REST API Integration
- **Tools & Platforms:** Git/GitHub/GitLab, Vite, Webpack, Figma, Postman
- **Frontend Expertise:** SPA/SSR, Performance Optimization, SEO, Component Architecture, Cross-browser Compatibility

EXPERIENCE

Frontend Developer, Freelancer - online Jan 2025 – Present

- Designed and developed the entire frontend architecture of teamwork.uz **v2** freelancer platform from scratch, serving **4,500+ monthly active users**, improving average session duration by **38%** and reducing bounce rate by **41% through** UX and performance optimization.
- Built mikan.uz (Japanese language testing & level placement platform), processing **1,500+ monthly test submissions**, delivering real-time scoring, progress analytics, and mobile-first UI.
- Developed 404online.uz (IELTS preparation & exam simulation system), supporting **2,000+ monthly users**, increasing course completion rates by **42%** via UX restructuring and responsive design improvements.
- Built teplolux.uz e-commerce storefront, supporting **600+ monthly orders**, improving checkout conversion by 28% and reducing cart abandonment by 19%.
- Integrated 15+ REST APIs, implemented SSR and SEO optimization, and improved Lighthouse performance scores from 61 → 92, reducing frontend error rates by 55%.

Frontend Developer, inweb.uz - Tashkent, Uzbekistan Jun 2023 - Jan 2025

- Developed and maintained **10+** production monolithic web platforms, including e-commerce stores and corporate websites across retail, manufacturing, and service industries.
- Built full frontend architectures for etln.uz, di-sport.uz, cosmobox.uz, whoopshop.ru, delivering scalable UI systems, responsive layouts, and complex UI flows including product catalogs, carts, and checkout processes.
- Implemented full-page animations and motion-heavy UX for **whoopshop.ru**, **ramiz.uz**, **accordprint.uz**, enhancing user engagement and visual brand impact.
- Developed **15+** corporate websites including **fergchem.com**, **arostr.com**, **aterflo.uz**, delivering SEO-optimized multi-page architectures (**10–15+ pages each**).
- Provided long-term frontend support and feature development for **idea.uz** and **110-volt.uz**, resolving UI issues and shipping UX improvements.

- Designed and developed full frontend architectures for **ipar.uz**, **teamwork.uz (v1)**, **atlogisticgroups.com**, and multiple corporate websites, delivering scalable, SEO-optimized multi-page platforms.
- Built online nurse consultation platform (Telegram Web App), supporting real-time patient intake forms, scheduling flows, and mobile-first UX.
- Developed video-based trading course platform, enabling student registration, secure payments, gated video access, and admin content management workflows.

PROJECTS

teamwork.uz (Freelancer Marketplace Platform)

[v1](#) / [v2](#)

- Architected complex multi-role dashboards (client/freelancer), real-time messaging UI, and job lifecycle workflows from posting to contract completion.

404online.uz — IELTS Testing & Education Platform

[Web](#)

- Built full exam engine frontend including timed sections, auto-save, answer validation, and result analytics dashboards.

EDUCATION

- **Japan Digital University (JDU)**, Tashkent, Uzbekistan – IT management (Part-time) (Expected 2027)
